

Dear Stakeholders,

The Speak Up! Project would like to inform you about the **main objectives** and results currently being developed:

- Speak up! aims to improve the mobility of young workers and apprentices all across Europe.
- Speak up! facilitates job-specific language learning in the destination country.
- Speak up! fosters better employability on the European job market.

Learners may enroll on our Speak Up! Multilingual Online Platform for different purposes:

- Work with interactive learning materials
- Select from ten different occupations
- Choose one of four professional sectors
- Learn about other workers' experiences

Materials for apprentices and young workers working in one of the following ten professions of four different branches are available:

- Welder
- Solar panel installer
- Waiter / waitress
- House keeper
- Hotel receptionist
- Kitchen porter
- Aeronautical mechanic
- Aeronautical electronic
- Organic farm worker
- Winery worker

Have a look at our **platform:**

In the website

<http://www.speakup-project.eu>

A clearly structured SELF-STUDY LANGUAGE COURSE in six European languages: English, French, Spanish, German, Portuguese and Italian is presented in a story-format.

Every course **consists of:**

- Ten units including one overview
- Job-specific terminology
- Every day expressions
- Practical information of the job environment

Speak Up! **targets** beginners (level A1), including people who may not be naturally inclined to learn languages, but who will enjoy this style of online supported training.

We match job challenges with job-oriented language in a fun, rewarding way.

All situations represent typical working place settings.
